

Free speech is an important guarantee of our constitution however control of our airwaves with one-sided messages is not in our constitution. Allowing Sinclair Broadcasting to censor the debate by not providing full disclosure and equal treatment to all candidates is equal to some of the atrocities that has happened in communist countries.

Let's ensure that our political process matures by requiring that corporations use sound reason, solicit input and educate the populace thereby allowing the citizens to make their own educated opinions.

Brainwashing us with half-truths does not even rise to the level of adolescent behavior let alone mature adult behavior - stop the insanity.

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them. Their license should not be renewed if this is how they insist on using public airwaves.
